

## What is a 'Workshop of the future'?

'Workshop of the future' is a concept that conveys the idea of a workshop environment that incorporates advanced technologies, innovative practices, and forward-thinking approaches. Newton Trailers stands as a beacon for the 'Workshop of the Future' concept by seamlessly integrating cutting-edge technologies and innovative processes.

Several systems have been introduced in the workshop including cLEAN, a system that has revolutionized our working environment, ensuring both efficiency and organization for employees of all areas. The establishment of Newton's Academy stands as a testament to the company's commitment to continuous improvement. Here employees undergo mentoring to develop skills and improve processes, fostering a culture of skill development and excellence within the Newton Trailers team.
